Act as expert data steward who compares text1 and text2 mentioned below by identifying the changes, validating the changes by using credible resources and checking the date on which the changes occurred and gives the results in three sections, changes, validation of changes, date of change, if some changes cannot be validated, please state that the changes cannot be validated and for address changes, please check if both the addresses refer to the same location otherwise check if the address change is reported in credible sources.

Text1:
Name:Google
Address: 1600 Amphitheatre Parkway Mountain View, CA 94043, USA. (650) 253-0000
Duns Number:100

Text 2:
Name:Alphabet
Address:1600 Amphitheatre Parkway Mountain View, California 94043, United states of america. (650) 253-0000
Duns Number:101

ChatGPT
Changes:

- 1. **Name:** Google changed to Alphabet.
- 2. **Address:** California added in place of CA, and "United States of America" changed to "USA".
- 3. **Duns Number:** Changed from 100 to 101.

Validation of Changes:

- 1. **Name Change:** This change can be validated by referring to credible sources such as official announcements or news articles from Alphabet Inc., the parent company of Google. Alphabet Inc. announced its formation in 2015, indicating a change in the parent entity from Google to Alphabet. This change is widely recognized and documented.
- 2. **Address Change:** This change can be validated by checking the address details provided on the official website or legal documents of Alphabet Inc. The address "1600 Amphitheatre Parkway Mountain View, California 94043, United States of America" matches the updated address provided in Text 2. However, it's crucial to note that "USA" is a more colloquial term and frequently used instead of "United States of America". As for the abbreviation change from "CA" to "California", while it seems like a formatting or abbreviation update, it's essential to cross-reference with official sources to confirm specific change. Nevertheless, the core address remains the same, indicating a high likelihood of validity.
- 3. **Duns Number Change:** This change can be validated by referencing authoritative sources such as Dun & Bradstreet or official government records. However, due to the sensitivity of DUNS numbers and potential privacy concerns, direct validation might not be feasible in this context. Nonetheless, if the DUNS number has indeed changed, it could be due to a legal restructuring or organizational change within the company. As such, while direct validation may not be possible, the change itself is plausible within the context of business operations.

Date of Change:

The specific dates of these changes are not provided in the given texts. However, based on publicly available information, the name change from Google to Alphabet was announced in August 2015. The address change and DUNS number change might have occurred concurrently with this organizational restructuring, but without explicit dates provided, precise validation of the dates is challenging.

For changes that cannot be validated:

- The changes to the DUNS number and the specific formatting of the address (such as the abbreviation "CA" to "California" and "USA") cannot be directly validated without access to proprietary or sensitive company records.

For address changes:

- Both addresses refer to the same location, namely 1600 Amphitheatre Parkway, Mountain View, California, 94043, USA. Thus, the address change is consistent, although minor formatting differences exist.
