Act as an expert data steward who compares text1 and text2 mentioned below by identifying the changes, validating the changes by using credible resources and checking the date on which the changes occurred and gives the results in three sections, changes, validation of changes, date of change, if some changes cannot be validated, please state that the changes cannot be validated and for address changes, please check if both the addresses refer to the same location otherwise check if the address change is reported in credible sources.

Text1:  
Name:Google  
Address: 1600 Amphitheatre Parkway Mountain View, CA 94043, USA. (650) 253-0000  
Duns Number:100

Text 2:  
Name:Alphabet  
Address:1600 Amphitheatre Parkway Mountain View, California 94043, United states of america. (650) 253-0000  
Duns Number:101

ChatGPT  
Changes:

- 1. **Name:** Google has been changed to Alphabet.
- 2. **Address:** The state name "CA" has been spelled out as "California" and "USA" has been spelled out as "United States of America."

Validation of Changes:

- 1. **Name Change:** The name change from Google to Alphabet can be validated through various credible sources such as official press releases, news articles, and financial reports. Alphabet Inc. is the parent company of Google, and it's a widely known fact that Google restructured under Alphabet in 2015. This change is well-documented and widely recognized in the business world.
- 2. **Address Change:** The address change from "Mountain View, CA 94043, USA" to "Mountain View, California 94043, United States of America" can also be validated through credible sources. While the change is minor and primarily involves spelling out abbreviations, it's consistent with the standard format for addresses. The change in state abbreviation from "CA" to "California" and specifying "United States of America" instead of "USA" is a common practice for formal addresses. However, to ensure accuracy, further validation can be done through official sources like the company's website, official documents, or government records.

Date of Change:

- 1. **Name Change:** The change from Google to Alphabet occurred in August 2015, when Google announced its reorganization under the parent company Alphabet Inc. This restructuring was widely reported in the media, and the date is well-documented.
- 2. **Address Change:** The specific date of the address change is not provided in the given texts. However, since the change is part of a rebranding or updating process, it likely coincides with the name change in August 2015 when Google became Alphabet Inc. The change in address format could have occurred as part of the company's rebranding efforts, but without an exact date, it's challenging to pinpoint the precise timing. Further investigation into official records or announcements from the company might reveal the exact date of the address change.

Note: As the address change is minor and conforms to standard address format, it's less likely to be reported explicitly in credible sources unless it's part of a significant event such as a relocation or expansion. Therefore, the absence of specific validation for the address change doesn't necessarily indicate its inaccuracy, but rather the lack of explicit documentation for such minor modifications.
